General Information

EDITORIAL ENQUIRIES

All enquiries about official notices, public notices, advertisements and general information in the Journal should be directed to IP Australia, ABN No 38 113 072 755, PO Box 200 Woden ACT 2606

(Telephone 02 6283 2999)

(Fax 02 6283 7999)

(E-mail assist ipaustralia.gov.au)

Copy for advertisement in the Journal should be received at the Patent Office not later than seven days before the desired publication date. If a publication date is not nominated, the advertisement will appear in the next available issue.

CONTACT INFORMATION

Customer Support Centre

Ph: 02 6283 2999 Fax: 02 6283 7999

E-mail: assist ipaustralia.gov.au

Customers can contact the Customer Support Centre by telephone or by e-mail. Telephones are staffed between 9AM and 5PM EST each working day.

Customers should contact the CUSTOMER SUPPORT CENTRE for information about:

- All Patent Matters including PCT and Innovation Patents.
- All Trade Mark Matters.
- All Design Matters.

Professional Standards Board for Patent and Trade Mark Attorneys

Ph: 02 6283 2345 Fax: 02 6285 1048

ORDERING PATENT DOCUMENTS

When ordering copies of Australian patent specifications, or abstracts and abridgments notified as open to public inspection on or after 26 October 1978, or as accepted on or after 16 November 1978, the documents should be referred to by application numbers only, preceded by the letters AU-A or AU-B respectively.

REQUESTS FOR INFORMATION UNDER SECTION 194(c)

A request for information under Section 194 (C) of the Patents Act 1990 should be made in the approved form and be accompanied by the prescribed fee. The request should be as detailed as possible.

INFORMATION FROM REGISTERS

All requests for information from the Register of Patents, Trade Marks or Designs, should be made in writing and accompanied by the prescribed fee. The Registers are located in Canberra and may be examined free of charge.

COUNTRY CODES

For a listing of country codes used by IP Australia please refer to the Official Journals dated 7 November 1996.

ABBREVIATIONS IN JOURNAL

Standard abbreviations are used in the name of companies and firms. Enquiries concerning the precise name should be directed to the Customer Support Centre.

FREEDOM OF INFORMATION ACT

What does it do?

- Gives you right to obtain information held by Commonwealth Ministers, Departments and most statutory bodies (these bodies are called agencies under the Act).
- Requires Commonwealth Government agencies to make available to members of the public:
 - information about agencies, their functions and operations.
 - information about rules and practices which are used in making decisions which affect you.

- Gives you a legal right to:
 - see non exempt documents held by agencies, and
 - appeal against a decision not to grant access to a document.

What documents can you see?

- The Act gives you a right to see documents lodged on or after 1 December 1977, or earlier if you need them to understand another document you have already.
- Documents include files, reports, computer printouts, maps, plans, photographs, tape recordings, films or videotapes.
- Documents which are available for purchase under the Patents Act 1990, the Trade Marks Act 1995 or the Designs Act 2003 are not available under the Freedom of Information Act (Section 12 refers).

How do you apply?

Requests for access to documents must

- Be in writing
- Provide sufficient information so as to enable identification of the documents requested
- Specify an address in Australia where notices can be sent and
- Be accompanied by the application fee (currently \$30.00) or specify an IP Australia account to which the charges will be posted.

Requests for documents should be addressed to IP Australia, PO Box 200 Woden, ACT 2606, or faxed to 02 6283 7999

NOTICE TO ADVERTISERS

The attention of all advertisers and advertising agents is drawn to the provisions of division 1 of Part V of the Trade Practices Act which prohibits various misleading or deceptive conduct and Section 53 provides that a corporation, and in some instances a person, shall not -

- Falsely represent that goods are of a particular standard, quality, grade, composition, style or model or have a particular standard, quality or grade;
- Falsely represent that goods are new;
- Represent that the corporation has a sponsorship, approval or affiliation it does not have;
- Make a false or misleading statement concerning the need any goods or services; or
- Make a false or misleading statement concerning the existence, exclusion or effect of any condition, warranty, guarantee, right or remedy.

A breach of provision of Part V of the Act may involve a penalty of up to \$50,000 plus damages and an injunction. Attention is also drawn to State laws that govern advertisements.

Therefore it is an express provision of IP Australia accepting any advertisement that it complies with all State and Commonwealth Laws.

REQUIREMENTS FOR ADVERTISEMENTS

Advertisements for publication in the Official Journals can be filed either as hard copy or electronically. Our preference is that they be filed electronically, but please note that they can only be accepted if they are in PDF format or sent as Word documents. All advertisements, whether filed as hard copy or electronically, must be completed either within an A4 page with a 4 cm top and 2 cm side and bottom margin, or within half a page with 2 cm margins all round. If copy does not meet these size requirements and it is necessary to photo reduce it, the quality of the advertisement cannot be guaranteed. All copy must be received by 1:00pm on Wednesday one week prior to the date of publication. Electronic copy must be sent by e-mail to publications ipaustralia.gov.au The charge for a full page advertisement is \$AU 100 and for a half page is \$AU 50.

DECISIONS OF THE COMMISSIONER OF PATENTS AND REGISTRAR OF TRADE MARKS AND DESIGNS

- All decisions of the Commissioner and Registrars are available free of charge from AUSTLII's website www.austlii.edu.au.

Copies of all written Patent and Design decisions are available (except if they would not be available under the provisions of the Freedom of Information legislation, e.g. if they would effectively disclose matter from documents that are not open to public inspection) on request for a cost of \$AU 25. They are also available for inspection in indexed volume series, dating from 1 January 1987, in the Office library, Canberra.

Copies of Trade Mark decisions may be accessed via IP Australia's website www.ipaustralia.gov.au.

- Copies of the taped record of Patent and Design hearings are available (with the same exception as above) on request.
- When a written decision is issued the fact of the decision plus a brief head note will be published in the Official Notices section of the next available Patents, Trade Marks or Designs Journal.

HEARINGS BEFORE THE COMMISSIONER OF PATENTS AND THE REGISTRARS OF TRADE MARKS AND DESIGNS

Hearings before the Commissioner of Patents and the Registrars of Trade Marks and Designs will be set down in Melbourne, Sydney, Adelaide, Perth and Brisbane during the periods indicated below.

Patent and Design Matters 2004

| | |
|-----------|-----------------|
| Melbourne | 10-12 May |
| Sydney | 12-14 July |
| Adelaide | 03-04 August |
| Perth | 05-06 August |
| Brisbane | 02-03 September |

Note: Ex parte matters will have priority over other matters for allocation of a hearing date in these sessions.

Trade Mark Matters 2004

| | |
|-----------|---|
| Melbourne | 16-20 February 07-11 June 13-17 September |
| Sydney | 15-19 March 19-23 July 18-22 October |
| Adelaide | 16-17 August |
| Perth | 19-20 August |
| Brisbane | 23-24 August |

Persons who desire matters to be set down for hearing in Melbourne, Sydney, Adelaide, Perth or Brisbane must give at least one month's notice of their intention to be heard. If such notice is not given, it may be that there would be insufficient time to allow for the execution of official procedures associated with the listing of hearings, and as a result, the matter involved might not be listed.

Subject to the convenience of this Office, hearings will be set down in Canberra at any time suitable to the parties.

LIST OF STATE OFFICES

IP Australia State offices are located in the Australian Capitals at the addresses given below. Requests for information may be obtained by calling at, phoning or writing to these offices or IP Australia, Canberra.

GUIDE TO THE USE OF THIS JOURNAL

The Australian Official Journal of Patents (AOJP) reports all the major events and actions which take place during the life cycle of an Australian patent and provides certain details of these actions as they relate to the patent or patent application involved. This guide sets out to teach the reader how to use the journal to access this information.

While there are many possible actions in the life of a patent, the majority of actions reported relate to the following events, which are the main stages in the progression of a patent application to a sealed patent:

(i) FILING -

This is the act of making an application. When the application is first filed certain details are published.

(ii) OPEN-TO-PUBLIC-INSPECTION (OPI) -

Approximately 18 months after first filing of an Australian or a corresponding foreign application, certain application documents, including the complete specification, become available to the public (Open-to-Public-Inspection or "OPI"). Relevant application details are published. In addition, an Abstracts Supplement to the AOJP contains abstracts of the inventive content of the OPI applications.

(iii) ACCEPTANCE -

This is the Commissioner's acceptance of a patent application. Once the Commissioner has accepted a patent application, certain details of the application are published in the AOJP. In addition, an Abridgments Supplement contains an abridgment (usually the broadest accepted claim and relevant drawing where appropriate) for each accepted application. Notice of opposition may be filed within three months of advertisement of acceptance.

(iv) OPPOSITION -

If an opposition action is commenced against the grant of the patent, the six-figure acceptance number and the name of the opponent are published.

(v) SEALING -

Most accepted applications are not opposed. These proceed to sealing and become granted patents. Of the few that are opposed (less than 1%) most of these, after resolution of the opposition, proceed to sealing and become granted patents. Sealed patents are simply listed in order of their six-figure acceptance number.

In addition to the actions related to these stages, other actions reported include: assignments, lapsing or withdrawal of applications and ceasing or expiry of patents, voluntary amendments, extensions of time for certain actions and registration of licences.

How To Identify Information Using "INID" Numbers

Patents are published in many different countries and in many different languages. As a result, finding the information that you want (eg the filing date) on a patent document or in a journal can be quite difficult. There is an international system operating, however, which codifies this information in an unambiguous way, by assigning a specific number to each piece of information about the history of a patent. These numbers are called the Internationally agreed Numbers for the Identification of Data or INID numbers.

These numbers appear on all published patents and abstracts and are used throughout this journal to identify particular items of information. For example, the date on which a document is filed has the INID number {22}, while the name of the applicant has the INID number {71}. These numbers are always expressed in parentheses and always immediately precede the information to which they relate. For example :

(22) 12.10.91

means that the filing date of the document which contains this reference is 12 October 1991. Learning the INID numbers for the information you want will help you find it quickly and easily.

A complete list of the INID numbers and the items to which they relate is provided at the end of this Guide.

How Australian Patent Documents are Numbered

Patent applications in Australia are assigned numbers at various stages in their processing. Each Australian application which proceeds to acceptance will have at least two (and sometimes more) different numbers during its life. When searching for information and ordering documents it is vital that you understand the numbering systems.

1. Provisional Applications are given a number with two characters and four numbers

e.g. PM1234.

A provisional application number is identified by the INID number {21}.

2. Complete Applications are given a five-figure application number followed by the last two digits of the year of filing

e.g. 12345/93.

There are prefixes applied to this number which indicate whether the application has been accepted:

A document corresponding to an unaccepted application has the prefix, AU-A; eg AU-A-12345/93.

A document corresponding to an accepted application carries the prefix AU-B; eg AU-B-12345/93.

Users need to be aware that an accepted document may differ from the corresponding unaccepted document. This is because amendment may occur between first publication (OPI) and second publication (acceptance).

A five-figure application number is identified by the INID numbers (11) or (21).

3. When a patent application is **accepted** it is given a six-figure document number in addition to the five-figure application number

e.g. **123456**

This is the number you must use to keep track of the application in the AOJP from now on. It is identified by the INID number (10).

NOTE: When ordering any patent document from us, whether accepted or not, please quote the five-figure application number preceded by the appropriate prefix.

Arrangement of Information in the Journal

For each of the categories

(i) Provisional Applications Filed,

(ii) Complete Applications Filed,

(iii) Applications Open to Public Inspection, and

(iv) Applications Accepted

the Journal lists the information published in that category in an alphabetical Name Index list based on the name of the applicant. These indices are useful if you wish to find information about applications made by a particular applicant.

In addition to the Name Index there is provided, for each of these categories, a Numerical Index. This index lists the applications either in order of their five-figure Application Numbers, in the case of complete applications filed and applications OPI, or in order of their six-figure Document Number in the case of accepted applications. It provides, for each number, the name of the applicant. These indices are useful if you wish to track the progress of a particular patent application.

There are also IPC Indices provided for applications which are OPI and for applications which have been accepted. IPC stands for International Patent Classification. Each IPC "mark" is an alpha-numerical representation of a particular area of technology. These indices are in order of IPC mark, and within each mark provide either the five-figure application numbers of the applications which are now OPI or the six-figure numbers of the cases now accepted. These indices are useful if you wish to check on patent activity in a particular technology.

Using the Indices

1. To Find Patent Information if You Know the Name of the Applicant.

Use the Name Indices. They will give you the following information identified by their INID number:

| <u>ITEM</u> | <u>INID</u> <u>No.</u> | <u>ITEM</u> | <u>INID</u> <u>No.</u> |
|---|---------------------------|--|---------------------------|
| A) Provisional applications filed – Name index | | B) Complete applications filed – Name index | |
| The <u>name</u> of the applicant | (71) | The <u>name</u> of the applicant | (71) |
| The <u>Provisional application number</u> | (21) | The <u>number</u> assigned to the application | (21) |
| The <u>date</u> of filing | (22) | The <u>date</u> of filing | (22) |
| The <u>title</u> of the invention | (54) | <u>Title</u> of the invention | (54) |
| | | <u>Number</u> of priority document(s) if any | (31) |
| | | <u>Date(s)</u> of filing of priority documents | (32) |
| | | <u>Country</u> in which priority document filed | (33) |
| | | PCT application <u>number</u> | (86) |
| | | | |
| <u>ITEM</u> | <u>INID</u> <u>No.</u> | <u>ITEM</u> | <u>INID</u> <u>No.</u> |
| C) Applications open to public inspection – Name index | | D) Applications accepted – Name index | |
| The <u>name</u> of the applicant | (71) | The <u>name</u> of the applicant | (71) |
| The <u>number</u> of the document | (11) | The <u>number</u> of the document | (11) |
| The <u>number</u> assigned to the application | (21) | The <u>number</u> of the accepted document | (10) |
| The <u>date</u> of filing | (22) | The <u>number</u> assigned to the application | (21) |
| The <u>title</u> | (54) | The <u>date</u> of filing | (22) |
| The <u>classification marks</u> | (51) | The <u>title</u> | (54) |

| | | | |
|---|------|---|------|
| Priority document <u>number(s)</u> | (31) | The <u>classification marks</u> | (51) |
| <u>Date</u> of filing of priority document(s) | (32) | PCT publication <u>number</u> | (87) |
| <u>Country</u> in which priority document filed | (33) | Priority document <u>number</u> | (31) |
| Publication <u>date</u> of unexamined document | (43) | <u>Date</u> of filing of priority document(s) | (32) |
| Inventors <u>names</u> if known | (72) | <u>Country</u> in which priority document filed | (33) |
| <u>Patent Attorneys</u> | (74) | Publication <u>date</u> of unexamined document | (43) |
| Related by addition | (61) | Publication <u>date</u> of examined document | (44) |
| Related by division | (62) | Publication <u>date</u> of granted patent | (45) |
| | | Inventors <u>names</u> | (72) |
| | | <u>Patent Attorneys</u> | (74) |
| | | Related by addition | (61) |
| | | Related by division | (62) |

You will notice at each stage of following an application through that all applications are in alphabetical order of Applicant, not inventor.

2. To Find Information About a Patent Application if You Know its Number.

Use the appropriate numerical index. This will give you the name of the applicant from the number. You will then need to use the appropriate Name Index as above to find out other information about the Patent Application you are interested in.

The following Numerical Indices are available:

- A) **Provisional Applications** filed.
- B) **Complete Applications** filed.
- C) **Applications Open to Public Inspection**
- D) **Applications Accepted** (note that this uses six-figure document numbers rather than five-figure application numbers).

3. To Find Information About Patent Documents in the Area of Technology in which You are Interested if You Know the International Patent Classification Mark for that Area.

All patent applications are classified according to their subject matter using the International Patent Classification (IPC). Although the system is very detailed and covers all technologies, knowledge of the IPC marks of the technologies you are interested in will allow you to find patent documents in these technologies quite easily. To identify the IPC marks of technologies you are interested in, you can inspect relevant documentation in any of IP Australia's state offices.

The indices to use are

- A) Applications **OPI** – IPC Index
- B) Applications **accepted** – IPC Index.

These indices give you the numbers of the applications which are either OPI or Accepted and are listed in order of their IPC marks.

Once you have the numbers of the documents that interest you, consult the relevant Number Index (see 2. above) to find the applicant's name, and then the Name Index (see 1. above) to find out the details of that application.

Comments on Guide

Comments on the usefulness of this guide and suggestions for improvement are welcome. Please contact Rob Melvin (Ph: (02) 6283 2274; Fax: (02) 6285 3593).

'INID' NUMBERS in use on Australian Patent Documents

'INID' is an acronym for 'Internationally agreed Numbers for the Identification of Data'.

(10) Document identification

- (11) Number of the document.
- (12) Plain language designation of the kind of document.
- (19) WIPO country code, or other identification, of the country publishing the document.

(20) Document filing data

- (21) Number(s) assigned to the application(s).
- (22) Date(s) of filing application(s)
- (23) Other date(s) of filing, including exhibition filing date and date of filing complete specification following provisional specification.
- (24) Date from which industrial property rights may have effect.

(30) Priority data

- (31) Number(s) assigned to priority application(s).
- (32) Date(s) of filing priority application(s)
- (33) Country (countries) in which the priority application(s) was (were) filed.

(40) Date(s) of making available to the public

- (43) Date of publication by printing or similar process of an unexamined document, on which no grant has taken place on or before the said date.
- (44) Date of publication by printing or similar process of an examined document, on which no grant has taken place on or before the said date.
- (45) Date of publication by printing or similar process of a document, on which grant has taken place on or before the said date.

(50) Technical Information

- (51) International Patent Classification.
- (52) Domestic or national classification.
- (54) Title of invention.
- (56) List of prior art documents, if separate from descriptive text.
- (57) Abstract or claim.

(60) Reference(s) to other legally related domestic document(s)

- (60) Related by cognate(s).
- (61) Related by addition(s).
- (62) Related by division(s).

(70) Identification of parties concerned with the document

- (70) Name(s) of nominated person
- (71) Name(s) of applicant(s).
- (72) Name(s) of inventor(s) if known to be such.
- (74) Name(s) of attorney(s) or agent(s).
- (75) Name(s) of inventor(s) who is (are) also applicant(s)

(80) Identification of data related to International Conventions other than the Paris Convention

- (86) PCT Application Number.
- (87) PCT Publication Number.

NOTE

- (1) Australian patent documents published on or after 26 October 1978 should be referred to by the application number preceded by the prefix AU-A or AU-B.
AU-A = Pre-examination **AU-B** = Post-examination
- (2) The classification used is the International Patent Classification and is identified by the INID code (51). Further editions of the classification are identified as (51)², (51)³, (51)⁴ and (51)⁵.
- (3) INID code 74 provides for the name of patent attorney, or firm of attorneys, prosecuting an application.
- (4) No provision is made for addresses for service. Addresses for service of applicants not represented by an independent attorney or firm are included on microfiche of complete specifications available for viewing and sale at the IP Australia State Offices.

Official Notices**DECISION OF A DELEGATE OF THE COMMISSIONER OF PATENTS**

Application : No. **662655** in the name of **EMPEROR SPORTS PTY. LIMITED**

Title : **A Device For Use In Sport**

Action : Request under S104 by **EMPEROR SPORTS PTY. LIMITED**
to amend the specification

Decision : Issued 03 November 2004.

Abstract

The last statement of proposed amendments filed during re-examination process on 18 May 2004 was never considered by the examiner during the re-examination process. The delegate's decision revoking the patent indicated that, while the claims of 18 May 2004 may have included subject matter which was novel and inventive, there was doubt as to whether the amendment to insert the matter was allowable. To clear up any doubt, the amendments were examined and an adverse report issued on indicating that the amendment was not allowable. Emperor subsequently appealed this decision. However, subsection 104(7) of the Patent Act allows for an appeal "against a decision of the Commissioner allowing, or refusing to allow, a requested amendment". There was doubt as to whether the report was in fact a "decision" under this section. To avoid uncertainty, the Commissioner proposed to issue a formal decision.

The amendment is not allowable under S 102(1) since claim 1 would claim matter not in substance disclosed. Proposed Claim 1 (on which all other claims are ultimately dependent), claims a device "when used" in a game of Rugby League or Australian Rules football. The interpretation to be placed on the term "when used" has had no clear guidance from the courts. The traditional interpretation, following the obiter in *Wellcome Foundation Ltd v Commissioner of Patent* 30 ALR 510, means, in essence, that claim 1 is a claim to a method of playing either Rugby League or Australian Rules football. However, an alternative interpretation is that the claim is directed to a device limited in the space/time continuum to being within a game of Australian Rule football. I am disinclined to adopt the alternative interpretation, since no clear guidance has been provided by the courts. For either interpretation, there is no disclosure in the specification, beyond a passing comment, of any form of Australian Rules football which uses the device, no rules that may be applicable to this game, and no hint as to what rules need to be created and implemented to allow an Australian Rule football game to be played with the particular device described. As such, there is no "real and reasonably clear disclosure" of a system of playing Australian Rules football with the device.

Amendment refused.

Official Notices

DECISION OF A DELEGATE OF THE COMMISSIONER OF PATENTS

| | | |
|--------------------|---|---|
| Application | : | No. 71586/00 in the name of DALE VICTOR MACKAY and PAUL TAYLOR MCKAY |
| Title | : | Electrosurgical Apparatus |
| Action | : | Request under section 32 of the Patents Act by DALE VICTOR MACKAY |
| Decision | : | Issued 5 November 2004. |

Abstract

The invention relates to an electrosurgical instrument which from the evidence had essentially evolved, firstly, from the combination of a known tungsten needle electrode and argon beam into a single instrument (the "initial concept") and, secondly, the provision of a shroud at least partially encasing the tungsten needle and having openings in its sidewall to dissipate gas when the instrument is in direct contact with tissue at the surgical site to thereby eliminate the risk of gas embolism (the "venting system").

Found on the evidence:

- The initial concept and the venting system had been arrived at by D alone without the assistance of P, or P's father, W. The contributions made by P may have led to a preferred workable embodiment of the initial concept, but they were of no material benefit. Further, D's original venting idea was not put into practical effect or otherwise contributed to by W.
- The invention was not made by D during the course and scope of his employment at any material time. Consequently, his original entitlement as sole inventor under section 15(1)(a) had not passed to his employer by reason of an employer-employee relationship.
- P is jointly entitled under section 15(1)(b) by virtue of the collaborative relationship between P and D. The fact that the parties had or were intending to file joint applications in accordance with their common intention to share future rights was clear evidence of a relationship amounting to a co-partnership in respect of developments arising from or incidental to the relationship, whereby any rights to inventions from individual developments rested with the partnership rather than the individual party responsible for such inventions.

Two months allowed from the date of the decision for D and P to request amendment of the patent request and file a notice of entitlement to reflect the decision or, alternatively, to file submissions on how the delegate should proceed.

No award of costs due to the manner in which the case for P had been conducted.

Official Notices**Certified copies of Priority Documents from the USPTO as electronic files**

Subsequent to our Official Notice of 20 August 2004, the USPTO have advised that they are reverting to their previous practice of issuing certified copies of patent application records with a paper certification statement, and offering electronic certified copies only at the requestor's option. In light of this, and in view of feedback from practitioners, the Commissioner is prepared to accept copies of the basic document in electronic format on CD for Australian applications in cases where copies have already been provided by the USPTO in electronic format.

IP Australia is currently developing a systems capability to enable direct electronic communication between Attorney offices and IP Australia – called 'B2B'. This system will enable the electronic filing of documents, including at some point the USPTO electronic priority documents. However this system is not yet available. Accordingly applicants are advised of the following interim arrangements for filing a certified copy of a US patent priority document with IP Australia.

For Australian applications identified with a 5 digit number plus year (eg 12345/99)

- A paper copy certified by the USPTO is required; **OR**
- For certified copies obtained from the USPTO between 30 July 2004 and 11 November 2004, in electronic form on a CD provided by the USPTO.

For Australian applications identified with a 10 digit number (eg 2003123456)

- A paper copy certified by the USPTO; **OR**
- On-line filing of the PDF file; **OR**
- For certified copies obtained from the USPTO between 30 July 2004 and 11 November 2004, in electronic form on a CD provided by the USPTO.

For a PCT application *in the international phase of processing* filed in the Australian Receiving Office, where priority is claimed from a US application:

- A paper copy certified by the USPTO; **OR**
- In electronic form on a CD provided by the USPTO [Note. Any such priority documents are forwarded directly to the International Bureau. Applicants may find it more convenient to submit the priority document directly to the International Bureau rather than IP Australia – see PCT Rule 17.1].

Filing an electronic copy using On-Line services

Practitioners may file the priority document electronically through the IP Australia website. This is only available for applications identified with a 10-digit number. The transaction type is General Service. The request must specify the relevant application number, and have the PDF file attached.

FISHER ADAMS KELLY

**PATENT & TRADEMARK ATTORNEYS
AUSTRALIA & NEW ZEALAND**

PATENT ATTORNEYS / TECHNICAL ASSISTANTS

Electrical Engineering

Fisher Adams Kelly, Queensland's most respected firm of Patent and Trademark Attorneys, have a vacancy in their information technology group for a patent practitioner. The suitable applicant will have a degree in science or engineering with a focus in electronics/computing/information technology. They will also be highly motivated, client focused, a keen team player and possess excellent communication skills.

Experience in preparing and prosecuting patent applications is essential. Industrial experience / exposure will be highly regarded. The suitable applicant will be expected to undertake training and studies leading to registration as a Patent and Trademark Attorney, if not already registered.

Enquiries Mark Horsburgh Ph: 61 7 3229 2655

An attractive salary package commensurate with experience and qualifications is offered.

Please apply in writing to:

Ms Barbara Holmes
General Manager
Fisher Adams Kelly
G P O Box 1413
Brisbane QLD 4001

or email your application to bholmes@fak.com.au . All applications will be treated with the strictest confidence.

Public Notices

Senior Technical Assistant—
Recently Qualified Patent Attorney
Brisbane Location

Due to sustained growth we are presently seeking to recruit a technical assistant or recently qualified patent attorney to work in our Brisbane office. The right person for this position will possess:

- Advanced English writing and comprehension skills
- A degree of business acumen and entrepreneurial flair—or an interest in developing such traits
- An electrical or mechanical engineering degree or a science degree with major physics and/or computer science components.
- A minimum of two years experience in a patent attorney firm, the Patent Office or a corporate IP environment.

A competitive remuneration package will be offered. To apply, please email your resume to Michael Buck at mbuck@enb.com.au or Barry Eagar at beagar@enb.com.au. Confidential enquiries can be made by phoning Barry or Michael on (07) 3216 0791.

ALL APPLICATIONS WILL BE TREATED IN STRICTEST CONFIDENCE

Assignments Registered

626030 Tube Technology Pty. Ltd. The patent has been assigned to **LiteSteel Technologies Pty Ltd**

657686 H. Lundbeck A/S The patent has been assigned to **Synaptic Pharmaceutical Corporation**

659803 Tube Technology Pty Ltd The patent has been assigned to **LiteSteel Technologies Pty Ltd**

659804 Tube Technology Pty Ltd The patent has been assigned to **LiteSteel Technologies Pty Ltd**

661288 Stealth Propulsion Pty. Ltd. The patent has been assigned to **Stealth Propulsion International, Ltd.**

663350 Pacific Solar Pty Limited The patent has been assigned to **CSG Solar AG**

667510 H. Lundbeck A/S The patent has been assigned to **Synaptic Pharmaceutical Corporation**

672768 H. Lundbeck A/S The patent has been assigned to **Synaptic Pharmaceutical Corporation**

674012 Yoshino Kogyosho Co., Ltd.; Hayakawa Rubber, Co., Ltd. The patent has been assigned to **Yoshino Kogyosho Co., Ltd.**

674017 Yoshino Kogyosho Co., Ltd.; Hayakawa Rubber, Co., Ltd. The patent has been assigned to **Yoshino Kogyosho Co., Ltd.**

680130 Pacific Solar Pty Limited The patent has been assigned to **CSG Solar AG**

685076 H. Lundbeck A/S The patent has been assigned to **Synaptic Pharmaceutical Corporation**

686580 H. Lundbeck A/S The patent has been assigned to **Synaptic Pharmaceutical Corporation**

689992 Pacific Solar Pty Limited The patent has been assigned to **CSG Solar AG**

695422 Cyprus Amax Coal Company The patent has been assigned to **Foundation American Coal Company, LLC**

696376 TVW Telethon Institute for Child Health Research; Patrick G. Holt The patent has been assigned to **Telethon Institute for Child Health Research**

700200 Pacific Solar Pty Limited The patent has been assigned to **CSG Solar AG**

701950 M & J Bos Consultants Pty. Ltd.; David Graham Ellis The patent has been assigned to **Micronisers Pty Ltd; David Graham Ellis**

Assignments Registered - cont'd

703697 H. Lundbeck A/S The patent has been assigned to **Synaptic Pharmaceutical Corporation**

707614 Sumitomo Metal Mining Company Limited The patent has been assigned to **Nippon Ketjen Co., Ltd.**

718641 Pacific Solar Pty. Limited The patent has been assigned to **CSG Solar AG**

723610 AMRAD Operations Pty. Ltd. The patent has been assigned to **The Walter & Eliza Hall Institute of Medical Research**

729267 Dolomatrix Australia Limited The patent has been assigned to **Dolomatrix International Limited**

730755 Aventis Pharma S.A. The patent has been assigned to **Gencell SA**

736813 Dolomatrix Australia Limited The patent has been assigned to **Dolomatrix International Limited**

742530 Thibierge & Comar (S.A). The patent has been assigned to **Thibierge & Comar (S.A.); Arjo Wiggins Fine Papers Limited**

744262 Pacific Solar Pty Limited The patent has been assigned to **CSG Solar AG**

755546 Pacific Solar Pty. Limited The patent has been assigned to **CSG Solar AG**

757536 Pacific Solar Pty. Ltd. The patent has been assigned to **CSG Solar AG**

766870 Antonio Germano Gomes Pinto The patent has been assigned to **Usinaverde S/A**

772009 Duck Creek Energy, Inc. The patent has been assigned to **TMIO, Inc.**

Alteration Of Name In Register

659175 Symtron Systems Inc. The name of the patentee(s) has been changed to **Kidde Fire Trainers, Inc.**

661313 Optiva Corp. The name of the patentee(s) has been changed to **Philips Oral Healthcare, Inc**

673035 Optiva Corporation The name of the patentee(s) has been changed to **Philips Oral Healthcare, Inc**

674841 Optiva Corp. The name of the patentee(s) has been changed to **Philips Oral Healthcare, Inc**

685102 Stramit Corporation Limited The name of the patentee(s) has been changed to **Stramit Corporation Pty Limited**

700043 Stramit Corporation Limited The name of the patentee(s) has been changed to **Stramit Corporation Pty Limited**

713521 Stramit Corporation Limited The name of the patentee(s) has been changed to **Stramit Corporation Pty Limited**

713646 Stramit Corporation Limited The name of the patentee(s) has been changed to **Stramit Corporation Pty Limited**

749038 Stramit Corporation Limited The name of the patentee(s) has been changed to **Stramit Corporation Pty Limited**

Alteration of Name in Register - cont'd

750220 Stramit Corporation Limited The name of the patentee(s) has been changed to **Stramit Corporation Pty Limited**

753081 Stramit Corporation Limited The name of the patentee(s) has been changed to **Stramit Corporation Pty Limited**

754358 Bird-Johnson Company The name of the patentee(s) has been changed to **Rolls-Royce Naval Marine Inc.**

761516 Idec Pharmaceuticals Corporation The name of the patentee(s) has been changed to **Biogen Idec Inc.**

Extensions of Term of Petty Patent, Section 69

Extensions Granted

Extension of term under Section 69(2) of the following Petty Patents have been granted

767628 **Palmrow Pty Ltd**

Specifications Republished

The following specifications contained errors when advertised OPI or Accepted. They have been reissued on the AU-A or AU-B CD-ROM of this Journal date.

768965 **Sumitomo Chemical Co., Ltd. and Toyota Jidosha Kabushiki Kaisha**

776795 **AVI BioPharma, Inc.**

777318 **Ciba Specialty Chemicals Holding Inc.**
